6. BUSINESS ITEMS
a. Discussion and Potential Action of Tree Farm Management (memos from Brad Luck & Ally Vile)
Mr. Luck detailed the recent history of the Tree Farm management, and differing opinions and decisions made by both the Town and Village. Mr. Duggan said that the intention of tonight is to determine if the intention of the current third-party Memorandum of Understanding (MOU) can be agreed upon. Mr. Brown said that most of this discussion would occur during Executive Session since it involves a third-party contract. The Boards discussed the accuracy of this comment, and Mr. Duggan said that the Selectboard had been under the understanding that discussion would occur during public session. Mr. Brown said the discussion of the MOU itself would occur during public session, and the remainder of the discussion would occur during Executive Session.

Mr. Watts said that the Selectboard would like to put together a lease extension agreement that includes some of the concerns that have been raised, including property access and transparency. He believes that these could be monitored during the four-year period and other options investigated should the benchmarks not be met. He does not believe that it is possible to make any other changes to the current agreement at this point, as there is a four-year stipulation to beginning discussion in the current agreement. The Boards reviewed the terms of the existing agreement, including debate over the amount of notice, if any, required to be given to the Tree Farm Management Group should their services no longer be required. Mr. Brown said that it is difficult to speak to the intent of an agreement that was created twelve years ago. Mr. Lawrence said that a contract extension is a continuation of the current terms for a longer period of time, not a totally new contract terms.

Mr. Tyler said that the last time the two Boards met to discuss this issue, they appeared to be more in agreement. Mr. Watts said that he had seen a “takeover plan” from the Village and that Town staff recommended that this issue be tabled. Mr. Chawla said that, at the last discussion, the two Boards agreed upon three years; however, the Selectboard chose to have the agreement at four years. The two Boards
discussed exactly how much time has passed with this agreement and exactly when it would end. Ms. Delphia said that when this agreement was passed, that the Town thought that an agreement for the Tree Farm would be in place prior to separation. Mr. Chawla said that he is not comfortable with such a large parcel being managed by an outside group and said that the Village did not have a recreation department when the original agreement was made. He said that the possibility of this parcel being municipally managed needs to be discussed prior to any agreement being signed.

The Boards talked extensively about the timing of this issue and how the two Boards got to two separate opinions on the issue. These include canceled joint meetings, separation debates, and changes in board composition. Mr. Tyler asked if, at the end of the four-year lease, the Selectboard would want the desire to be municipal takeover of the property. Mr. Watts said that this was a possibility but not guaranteed. Mr. Chawla said that the original resolution did say that the municipal management would be the result of the four-year agreement and said that the two Boards need to resolve the differences between the end goals between the two Boards. Ms. Hill-Fleury asked why the City was in such a hurry to take over the Tree Farm. Mr. Brown said that this is not the case. Ms. Delphia said that the Selectboard is uncertain if this property should be under municipal control and is not opposed to this.

Mr. Watts suggested that each Board look through the document and send changes to one another. The Boards discussed the possibility that they may not be able to come to an agreement by the end of the year when it expires. The remainder of the discussion took place in Executive session.

Mr. Brown requested public comment. Ms. Dunn said that it seems as if the two Boards are renegotiating the contract, not simply getting an extension.

b. Discussion and Potential Action of Contracts that are Exempt from Public Records Laws
This was discussed during Executive Session.

7. CONSENT ITEMS

a. Board Member Comments: Mr. Chawla asked that the City send another reminder letter to the construction site and the end of Pearl Street, as they have been consistently blocking the sidewalk. Ms. Delphia asked if the accounts payable approved in the Consent Agenda were for both the Town and City. Ms. Ladd confirmed that this was not the case. Mr. Watts invited all attendees to the Explore Essex event this weekend. Mr. Tyler said that the City Council needs to discuss the renovation of Lincoln Hall and the Public Works building at an upcoming meeting. Mr. Brown welcomed Ms. Mahoney, as this is her first meeting as the City Manager.

a. An executive session was needed to discuss negotiating or securing real estate purchase or lease options
